Subtraction workout

Remember me?

4 $7\cdot2 - 6\cdot58 =$

6·58 7·2

5 $10\cdot1 - 8\cdot79 =$

6 $6\cdot3\text{ m} - 3\cdot55\text{ m} =$

7 $\text{£}25\cdot35 - \text{£}18\cdot67 =$

8 $14\cdot26\text{ kg} - 13\cdot78\text{ kg} =$

9 $72\cdot46 - 56\cdot59 =$

Consecutive digits challenge!

10 Work out $43.21 - 12.34$ and record your answer.

Now choose a new number with consecutive digits and two decimal places. Reverse the digits. Subtract the smaller number from the larger number. What happens?

Try some other numbers with consecutive digits.
