# Answers

1 Count the money and write the amount shown.

2 Match the money to the correct total.

£25

£40

£10

£60

There is £8 in the purse.

True

Explain how you know.

There is £11 in the purse ( $£5 + £2 + £2 + £2 = £11$ ).

False

There is £44 in the money bag.

True

Explain your answer.

There is £34 in the money bag, not £44.

False

Circle the mistake in the money sequence.

£10   £12   £14   £15   £18

a Explain the mistake. £15 is incorrect. The sequence goes up by £2 each time.

b Write the correct money sequence. £10, £12, £14, £16, £18.
